1974 CARNIVAL QUEEN JUDGE WINS EMMY

C.B.C. Art Director and Minden's 1974 Carnival Queen Contest judge, Bill Zaharuk of Toronto, won an Emmy at Tuesday night's 1974 Emmy Awards Gala. The awards are presented each year at this time to honor outstanding achievements in the U.S. television industry.

Mr. Zaharuk's award was for Art Direction in the Toronto produced 'The Borrowers', a Hallmark Hall of Fame movie.

While associated with the C.B.C. for many years, Mr. Zaharuk is probably best known for his work as Art Director on the Johnny Cash show.

Last January Mr. Zaharuk was the lone judge for Minden's 1974 Winter Carnival Queen Contest. Winner was local high school student Lesley Lorraine Freeman.

Women's Institute

May meeting

The Minden Women's Institute held their meeting at the home of Mrs. A.S. Kernohan the evening of May 15. The President, Mrs. M. Sears opened the meeting and held a short memorial service in memory of Mrs. D. Prentice. The Roll Call, name a Spring Flower, was answered by 22 members. An announcement was made regarding the Centennial Ball on June 14 and correspondence was read. Delegates to attend the District Annual at Fenelon Falls were selected - being Mrs. P. Clarke, Mrs. Vera Cowen, Mrs. L. Cox and Mrs. Sears. Mrs. W. Walker and Mrs. Alice Todd also present.

Mrs. W. MacArthur was asked to take over the Current Events Convenorship and Mrs. Allan Taylor was appointed as Card Convenor. Places for the meeting for the next year were decided and the executive will meet the evening of June 10 to plan the programs.

The members were all in favour of placing several books in the Minden Library in memory of Mrs. Prentice. The meeting was then closed and an enjoyable time was spent over the tea cups. The June meeting is at the home of Mrs. Wallace Walker, June 19 at 2 p.m. This is our picnic meeting and all members are invited to bring a guest and any interested ladies are invited to attend as we welcome all to come and join our group.

United Church women's rally

BY MRS. MILDRED GOARD

The Spring Rally of Region 4 of the Lindsay Presbyterial of the United Church Women was held in Knox United Church, Coboconk.

The meeting was called to order by Mr. M. Watson, Chairman, with a call to worship, and a hymn followed by a warm welcome by Mr. Joblin. Devotions were taken by Mrs. C[illegible] of Haddow using the [illegible] of Corinthians [illegible] the scripture passage [illegible] J. Wilson delivered the meditation based on Faith, Hope and Charity. She gave an outline of each word ending with Faith, Hope and Love, and the greatest of these is Love.

The guest speaker of the day was Mrs. Betty Thompson of Belleville, past Conference Pres. She used as her theme 'Go ye into the world and preach the gospel'. She mentioned the prisoners in jail in South Viet Nam with pamphlets displayed for taking home to read, packets such as Mission Impossible Unless and Experience I. She also displayed a very interesting poster

See RALLY p.2

HERE and THERE with NORM MAIDENS

Sitting in my living-room enjoying a cup of 'Irish Coffee' courtesy of, my good friend Chris Wahlroth my thoughts were interrupted by a knock at the door. Settling down my grog, I answered the knock and I appeared for just a moment to be staring at myself in a mirror. When my caller introduced himself everything fell into place and I was taken back to the last election--this gentleman and are are look-alikes, so much so that his picture in the local papers looked like me--he was hollered at in the streets by friends of mine and I got the same treatment by those who mistook me for him. In a restaurant a man came over who lived in Lorneville and talked to me for some time about farming, me, who only knows the difference between the front and back of a horse because I have been often referred to by the end I know best. However we got it all straightened out.

So, if someone knocks on your door, it won't be me, it'll be F.M. Windatt, of Fenelon Falls, N.D.P. for Victoria-Haliburton. He'll be on the road for them again, he made a good showing last time and he may do better this time--he makes a lot of sense.

Speaking of visitors the Jehovah Witnesses must have a strong drive on--my home was visited three times in four days--maybe I'm in need of redemption but, I think that's pouring it on a little heavy. On the whole they don't force themselves like they used to. I remember some 18 years ago when one of the travelling brothers would put his foot in the door and, short of man-handling him you couldn't get away.
I'm all for people having their religion and doin' their own thing, but, when they try to force it into your home I think it's a bit much. Bear in mind I'm not against what they are doing, but personally I have enough problems without them bringing in more.

I understand that on June 15th next they are going to unveil a plaque at St. Paul's Anglican church--Rev. Andrew and those behind him deserve a lot of credit for getting this recognition for an historic site. Minden has always been dragging their feet when it comes to anything historical--I've been down the road on what it takes to get an historic site plaque and, believe me it isn't easy. In 1958 the Hon. L.M. Frost and myself engineered the plaque for the 'Clergy House'--the first historic site to be marked in Haliburton County. Now, some 16 years later the Church has come to the fore and got the recognition it deserves. By the time Minden gets around to it there will be nothing left--they should remember, that without a past you have no future.

I've only got one bone to pick with Peter Sweet and his UFO's--I understand he was going to explain the local situation to him--his stuff is interesting but, for me, he's too far afield--we're interested in closer to home. The flags are flying again--we've never been noted for 'flag fliers' but Jerry Pilsworth always leads off with a good display--I'll have a look around and see what gives with the flags this year--looks good to see the flags flying lets the general public know that we're proud of something.

I got a few pieces of graffiti in the mail last week--however, I have to draw the line somewhere and they won't make print.

Last week's 'Centennial Issue' of the Progress has been getting a lot of well-deserved credit. It certainly will be worth hanging onto and is worth every bit of the effort that went into it.

I was going to give you Chester Snively's letter this week but somehow or other it's got lost in the shuffle--hopefully I'll have it next week, not that it has that much value but I guess he's entitled to get his 2 cents worth in.

Drive carefully, we are coming into our summer season and the local highways will claim quite a few in accidents and death--there's no point in getting involved in stupid highway accidents because of a little extra speed--we'll be here no matter what, drive slower and enjoy what we have for you--lose control of things and you may never know that's happened--a poor way to end things.

E. HAGEN

Small, 2 bedroom house. Excellent well. Large garden. 5 acres with good highway frontage. Full price only $9,900.00.

Five acres, water frontage, view of nice water falls, good building site, year round access. Needs some fill. Only $8,500.00 full price.

50 acres with approximately 3,000 ft. of Burnt River frontage, near Kinmount. Very private, scenic. Only $30,000.00. Terms.

Two beautiful lakeshore lots. Sandy beach, very scenic. $9,900.00 each.

Various nice cottages available at several local lakes, as well as building back lots with lake access.

Several 25 acre properties, beautiful land near Norland.

Two bedroom home, year round, water front with access to Trent System. Stone fireplace, full basement with family room, garage. Asking $27,900.00.

RALLY FROM P.1

entitled 'Mission Endeavours'. This outlined many names and addresses for correspondence.
Mrs. Puterbaugh introduced the speaker from Life Line, Lindsay, Mrs. Joy Freeborn. She began by saying how she liked to have an open Bible in front of her and felt that maybe not too many Bibles are open in the homes that she is in contact with in her work. Her Fairy Tale story of a happy couple and their family illustrated their love for each other. She gave a very fine report of the work of Life Line and a short question and answer period. Reports were given by the Presbyterial Officers and Miss Vina Neal presented the 'In Memorium' service. A hymn sing opened the afternoon session very capably led by Mrs. C. Wells and Mrs. Joyce Bartley. Last year's representative to Quin-No-Lac, gave an interesting report of the School for Leaders. The offering was received and dedicated by Norland U.C.W.
An invitation by the Burnt River ladies to meet in their church in 1975 was received and the courtesy report read which brought the meeting to a close with the benediction.

UFO's BEYOND REASON

by

PETER G. SWEET

(For some six months now the almost nightly sightings of unidentified flying objects in the skies of Haliburton County have aroused the curiosity of not only area residents but countless Progress readers across North America.

Mr. Sweet has been a student of UFO's and other unexplained phenomena for the past 25 years, gathering both published and unpublished data and attending lectures...ed)

A RIDE IN A FLYING SAUCER

(7TH IN A SERIES)

Of the many who claim to have ridden in a flying saucer, the Polish born George Adamski's three trips are the earliest and most interesting. The first occurred February 19, 1953. Acting on a premonition he went to a bar in Los Angeles and was shortly joined by Firkon, the man from Venus. Driving out to the country they were met by Orthon standing beside a scout ship. The three entered and Adamski's impressions were -

The interior was one central brightly illuminated room with no visible lighting fixtures with neutral bare walls containing twelve portholes neatly spaced in groups of three. On one side was a control panel and through the centre of the cabin was a three foot diameter column that ran through the centre of the craft. In a wide ring around this column on the floor and on the ceiling was a giant viewing disc. It was described to him by Firkon as being a combination of a television screen and a telescope and could be varied in magnification. Around the perimeter of the room was a bench for sitting.

It was explained to him seat belts were needed only for take-off because occasionally there was a tug as the ship broke contact with the ground. There was a slight humming noise of power being applied and they took off at a great speed, there being no sense of vibration or feeling of acceleration. The motive power was described to him as electromagnetic. The engine was contained in this central column with the top being the North Pole of a magnet and the bottom the South Pole, which when needed could be switched as required. Instead of being driven in our sense, these craft travelled on electromagnetic tides which he was told exist throughout the universe.

In a short time they approached a huge mother ship parked in the blackness of space. It was cigar-shaped and about two thousand feet in length. Entering through a parking door on top they settled down in a huge hangar-like room onto a track that mechanically conveyed them towards the centre of the mother ship and came to rest. Leaving the scout ship, they entered a lounge and were greeted by a man who appeared older than his two companions (about forty years of age). Adamski instantly got the impression that this was a wise man. He was later told this man was 200 years old and because of the climate and living habits on Venus, visible aging as we know it did not exist. Some inhabitants did live to be a thousand years old. Because of the quiet manner and appearance of this man, he felt a great humility with him. On his home planet of Saturn, he was known as a Master. During this conversation and his two subsequent trips, in which he talked with other Masters, much knowledge was given to Adamski about the life and ways of people on other planets. It was learned that scientific explorations were a co-operation of all planets with the crews and personnel intermixed from all planets.

He was told war on other planets was a thing of the past and that all people, unlike earth beings, lived and worked in harmony under the natural laws of the Creator. Where earth people preached their religion, inhabitants of the other planets practiced it as a way of life and that earth people would finally come to a natural understanding of Truth.

On the return to earth, Adamski was given a view of the moon through the magnifying screen on the bottom of the scout ship. He saw the faint clouds and what appeared to be cities on the far side. On a later trip he was also given a view of Venus.

On a lecture tour in Europe (the latter part of 1953), Adamski was given an audience by Queen Julianna and Price Bernhard and an assortment of Dutch airforce personnel, astronomers and physicists. This meeting became very controversial and he was labelled by the press a kook.

In early 1954 I went to a lecture given by Adamski in Toronto. He talked of his experiences, showed slides, and exhibited many affidavits by people who had had encounters with flying saucers. The things he talked of seemed unbelievable, but confronted with questions from the audience gave very plausible arguments. His utopian ideas for the future of man to me showed no evidence of threat or harm even to our organized society. This man of mystery died on April 29, 1965. I doubt he died a rich man in a monetary sense, but he did spend half his life doing what HE wanted to do, what HE believed in, serving man in HIS own way, passing on his acquired knowledge to as many as would listen to him.

This account and others are covered much more extensively in his book, INSIDE THE FLYING SAUCERS.

Next Week: THE ABDUCTED

A FLYING SAUCER

THIS PHOTO WAS TAKEN BY GEORGE ADAMSKI OF A SCOUT SHIP WHICH HAS BEEN EXAMINED BY EXPERTS WHO WERE UNABLE TO PROVE IT A FAKE. IT IS RIDICULED BY MANY BUT STILL BEARS MARKED RESEMBLANCES TO EVEN RECENT PHOTOS OF UFO'S.

Drugs

The use of illegal narcotics in the Minden area and, in particular, attempts to coerce and trick Mindenites into using these drugs seem to be becoming more flagrant. During the recent holiday weekend, one Minden father who had taken his youngsters to the Community Centre dance forestalled the insistant attempts of an out-of-town visitor to sell a 'joint' of marijuana to one of his sons, and narrowly avoided a beating.

In another instance, a local man who joined a friend in a Minden hotel at a table shared with some visiting motorcyclists, was taken ill shortly after drinking his beer. Tests later revealed the presence of LSD, apparently placed in his beer when he wasn't looking.

From all reports, conditions at the Community Centre dance that weekend became appaling as the evening progressed; with the distinctive smell of marijuana increasingly evident; with teenagers and others in various states of collapse.

Last year's summer dances were a great credit to their promoters and to the community. In the space of just a few weeks they became a vital part of the Minden holiday scene.

Now their good name and the people of Minden are threatened by a few 'visitors'.

Increased police activity would seem indicated. Certainly, there must be increased vigilance on the part of the dance promoters to weed out the undesireables and send them packing.

Minden can do without the misuse and abuse of drugs.

Nut's

Gordon Juckes has it all wrong. He's the Secretary-Manager of the Canadian Amateur Hockey Association and the other day at the 60th annual CAHA convention in Winnipeg he blamed television coverage and exploitation of professional hockey violence for the increase in hockey mayhem at all levels. He called on the government to stop it.

Nuts!

It's the reportorial responsibility of television to present the game as it happens, accurately and without any editorial decisions as to what the viewer should or should not see. After all, the fans at the actual game have no choice but to see it as it really is; or, does Mr. Juckes suggest that when things get a little rough during a game, the fans at the rink be asked to avert their eyes in unison.

No, hockey violence in the big leagues and in the amateur and shinny divisions where youngsters tend to emulate their professional heroes can only be controlled in the game itself.

Give the referees and linemen who actually police hockey games the necessary rules and regulations and the authority to enforce them; make hockey violence infractions so costly to the individual and the team that no player in his right mind would dare mix it up; demand and get the unqualified and universal acceptance of game decisions by officials from the managements of all participating teams. That, and not censorship, is the way to halt today's fetish for fighting and violence in hockey at all levels.

LETTERS TO THE EDITOR

May 20, 1974,
Minden, Ontario.

Mr. Wm. Foote,
Minden Progress,
Minden, Ontario.

Dear Mr. Foote:

On behalf of the Minden Branch of the Canadian Red Cross, we would like to send out thanks for all your help on our yearly campaign. It was greatly appreciated.

Sincerely,
Eleanor M. Hall,
Secretary,
The Canadian Red Cross Society.

May 26th, 1974

To The Editor,
Minden Progress,
Minden, Ontario.

HATS OFF TO MINDEN OPP DETACHMENT

Last week we had two gentlemen from Germany staying with us, one of whom was involved in a minor accident on Highway 35.

For the rest of their stay any conversation invariably returned to how impressed they were with the promptness, kindness, understanding and helpfulness which was shown to them by the investigating O.P.P. Officer. These gentlemen were so enthusiastic about our police department there is no doubt that Officer Mike Maher will be a topic of conversation for some time to come and his excellent reputation has now spread to Europe.

A.D. Macnab
Red Umbrella Inn.

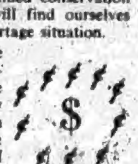
DOLLARS & GOOD SENSE

by WILLIAM J. MARTIN

Special Consultant to Avco Financial Services

The usage and conservation of energy has been discussed in this column before. Most of the information was to help you save gasoline as you drive or reduce your consumption of winter heating fuel. Now that we're into warm weather, I thought a few tips on household energy consumption would be in order.

Remember, even with the improved availability of fuel oils, without continued conservation efforts, we will find ourselves back in a shortage situation.



Take the kitchen, for example. There are many things you can do to save electricity, and cut utility bills at the same time. If your refrigerator or freezer isn't frostless, make sure you defrost them before the ice gets one-fourth inch thick. More ice cuts down on the cooling power of the coils. Keeping the door shut as much as possible also helps.

Check your temperature setting too. Operating your refrigerator or freezer at lower than necessary temperatures just wastes power. If you're going to be away for a day or two, raise the temperature a little.

Finally, keep the condenser coils at the bottom or rear of the unit clean and assure proper ventilation by maintaining space around it for air flow.

Readers' questions are welcome and should be send to Box 5875, London, Ontario.

THE DRUG PUSHER'S TARGET?

Buckhorn Road

By R Glen Hodgson

In this year of 1974 it would be of interest to take a look at the early Colonization Roads of Haliburton County in their Centennial year celebrations. With this in mind I have found through research on early Government books abd documents the following brief history:

THE BUCKHORN ROAD: In the year 1867 the Commissioner of Roads reports: From Buckhorn Rapids or Hall's Mills in Harvey, the line is surveyed through to the south boundary of Dysart 34 miles. About 6½ miles of the this road are made at a cost of $1,000.00 per miles. We have spent on the above 6½ miles $6,187.00 and the last mile is not yet finished. We are under promise to complete this road through Harvey, when the Town of Peterborough deposit $1,500.00 to our credit. Nearly 4 miles remain yet to make generally rough country.

In the year 1872 the comments were as follows: **BUCKHORN ROAD** 14 ¾ miles of the above road has been built by contract, under Specification No. 2 for cheap roads, at the rate of $200.00 per mile. Total expenditure thereon $2,929.32.

In the year 1873 the comments were as follows: **BUCKHORN ROAD** A Contract was let early in the season to Mr. William Graham for the construction of the remaining unopened portion of this line, extending from the first concession of the Glamorgan to the south boundary of the Township of Dysart about 11 miles. The contract was taken on Specification No. 1 at the low sum of $395.00 per mile. Mr. Graham struggled with his contract, until towards the end of September but on account of sickness, the difficulty of procuring labourers and more than, all perhaps because of having taken the contract at a figure far below its actual worth, he formally resigned the work at the beginning of October, after having made about six miles of road, on which there has been paid the sum of $2,190.00. **BUCKHORN ROAD REPAIRS** 2nd. An appropriation was made to complete this road as a good summer road from Hall's Bridge to the Township of Glamorgan, a distance of about 24 miles. This work has been conducted under an overseer. On account of the difficulty of procuring a sufficient number of labourers, the work did not proceed so rapidly as was desired or as was necessary to complete the whole work during the season. The south end of the road line, also is of extremely difficult character to form into a good road bed, being unusually broken and rough, and destitute of soil, alternated with marshy swamps. The overseer extended his works to a distance of 17½ miles at a total cost of $2,986.69.

In the year 1874 the comments were as follows: **BUCKHORN ROAD** The northerly end of this road was let by contract, as stated in your Report of the last season, but the Inspector's final report on the works had not been received at that date. 7½ miles and two chains of the road were completed for $500.00 per mile. In addition to the amount Two distinct contracts were let on this road in order to effect the satisfactory completion of the same to the intersection of the Monck Road. 1st the completion of 7½ miles of the line was a summer road which had been constructed as a cheap winter road. 2nd the construction of that part of the line in the Township of Cavendish which had not been opened in any manner, a distance of 1 ¾ miles. Both contracts have been satisfactorily completed. There has been expended on account of the first work $1,721.00 and on account of the second work $864.00.

In the year 1879 the comments were as follows: **BUCKHORN ROAD** Repairs have been made on this road in the north part of Harvey and the southerly part of Cavendish. 2¾ miles have been improved, including in the same distance 33 rods of crossways. Expenditure $225.62.

In the year 1880 the comments were as follows: **BUCKHORN ROAD** These repairs extend from the northerly part of Harvey to about the centre concession of Cavendish, a length of 8 miles or thereabout. Expenditure $522.38.

BUCKHORN ROAD (NORTH) Improvements have been made on this section of the Buckhorn Road over a distance of about 7 miles, namely, from the Monck Road northerly to the town line between Dysart and Glamorgan. It includes a diversion of 1/8 mile, made to avoid a very undesirable point in the original road. Expenditure $504.05.

In the year 1881 the comments were as follows: **BUCKHORN ROAD** The Buckhorn Road, which runs through the townships of

SEE BUCKHORN - P.5

BUCKHORN from P.4

Harvey, Cavendish and Glamorgan was repaired from Lot 23 in the 8th. concession of the first named township, northerly 10½ miles and of this length 6 miles were very thoroughly improved and in the low lying portions of the road. Expenditure.

In the year 1883 the comments were as follows: BUCKHORN ROAD - Repaired from the Monck Road north 7 miles and from Buckhorn north 4 miles. The country is rough and the road is consequently rough stony and irregular. Expenditure $723.00.

In the year 1883 the comments were as follows: BUCKHORN ROAD - 3½ miles were repaired in the County of Victoria and 3 in the County of Peterborough. In the former county the work was through Glamorgan Township and in the latter from Buckhorn, northerly. The road is now reported as in generally good condition. Expenditure $842.40.

In the year 1884 the comments were as follows: BUCKHORN ROAD - Repairs from about 2 miles north of Buckhorn, northerly 6 miles.

In the year 1885 the comments were as follows: BUCKHORN ROAD - 7 miles repaired, beginning about one mile south of the north boundary of Harvey and extending into the township of Cavendish. Expenditure $400.11.

We asked fishermen what they wanted in an outboard motor.

Here's their answer.

We knew it would take an exceptional new motor to replace our classic 9½ hp Sportwin. So, before we designed our new 9.9, we asked fishermen, both sport and commercial, what changes we should make.

We did what we were told.

We kept all the good features of our old Sportwin. The reliability. The fuel economy. The planing power. The steady power at dead slow trolling speeds. And the 8 quick-tilt positions.

We made the new 9.9 leaner and cleaner, and smaller. And we added a lot more to our 9.9. A new water-cooled mid-section. Evinrude prop-hub exhaust. More precise idle speed control. A new Quick-rise ignition system. And a pre-set shallow water drive.

On top of all this, we came up with a few neat answers of our own. We developed an electric start model with the starting motor under the hood where it ought to be. (For remote fishing trips, you just disconnect the battery and you've got a lightweight manual start outboard.)

So if you're a fisherman who knows what he wants in an outboard motor, see the new Evinrude 9.9 and also the new 15 hp Fastwin (manual & electric).

See Evinrude's complete fishing fleet — 2, 4, 6, 9.9 & 15 hp at your dealer's now.

Every Evinrude for '74 is designed to conserve energy by recycling unburnt fuel into additional power. And because every Evinrude is drainless, we're keeping our waters clean too!

The new 9.9 from EVINRUDE

SENIOR SOFTBALL

Hartwicke impressive in debut

The Stedman Raiders appear to have come up with the find of the last five years in the Inter-County Senior Softball league.

Rick Hartwicke made his debut on the mound for the Raiders in their season opener on Monday evening against the West Guilford Redmen and pitched an easy four hitter, in romping to a 13-1 victory.

After giving up a run in the first innng on two hits and a pair of walks, Hartwicke settled down and allowed only two scratch singles the rest of the way. He also fanned six Redmen.

Rick didn't stop here. In five appearances at the plate, he came up with two doubles and a single, scored three times and knocked in four runs.

Bob Austin, returning after a year's absence, also collected four RBI's, while playing coach Neil Burk accounted for three more.

Hartwicke (1-0) picked up the victory while Wade Stamp (0-1) suffered the loss, giving up eight runs on eight hits and a walk. Craig Stamp then came on in relief in the seventh with one out and gave up five runs on five hits and four walks.

Bob Austin collects 9 RBI'S

The Stedman Raiders made it 2 for 2 on Thursday evening in Haliburton with a 15-7 victory over the Midgets.

Bob Austin went on a hitting rampage in this game, with a three run homer, a double and two singles, accounting for nine of the Raiders fifteen runs. Cliff Burke also had a good night going five for six at the plate and scoring five times.

Top performers for the Haliburton Midgets were Barry Shaw four for six, Paul McCrea and Greg Bishop each four for five and two runs batted in.

Numerous errors were the major downfall of this young team, but with more games under their belts they will be tough in the stretch.

Pud Hamilton (100) went all the way for the Raiders, while Barry Shaw (0-1) suffered the loss and Tim Bain came on in the seventh in relief.

In other games played this week, the Dominion Hotel Shufflers used the long ball to defeat last year's defending champions Haliburton Huskies, 12-2.

Murray McGuines and Barry Kent each had three run blasts, Dave Trepanier had a two run shot and solos went to Jack Snell and Bob Penford.

Jack Snell (100) tossed an eight hitter in picking up the victory while Mark Schell (0-1) suffered the loss.

The West Guilford Raiders rebounded from a 13-1 shellacking by Stedmans to smash Gooderham 10-4 and 27-6. Craig Stamp (1-0) earned the win in the first game with Bob Kane (0-1) taking the loss. Wade Stamp (1-1) got the victory in the second with Vince Billings (0-1) suffering the loss.

In the second game played in West Guilford Sunday, George Nichols slammed a three run homer while Craig Stamp and Floyd Henry each had two run shots.

GOLF

The Minden Billiards Open gets under way at the Beaverbrook Golf Club, Sunday, June 2, commencing at 10 a.m. All those players already registered with John Hobbs, of the Minden Billiards, as well as all those interested in competing in this 10 round, 18 holes per round, Golf Tournament, are to be at the first tee at 10 o'clock.

The entry fee for this tournament is $10.00, which goes towards prize money and a small party at the tournament's conclusion.

This tournament is strictly a handicap tournament, with the first five rounds to determine handicaps. The first and last rounds of this tournament will be played as a group, the middle eight can be played at your own leisure. The final round is slated for Sunday, September 15, starting at 10 a.m.

TRACK & FIELD REPORT

'V.H.A.A. Track & Field Trials'

Kirk Hewitt led the way with two record breaking performances at this year's V.H.A.A. Track & Field Trials, and as a result, the Haliburton Senior Secondary came away with a whopping 247 point victory over the other three schools participating in the Trials in Fenelon Falls. Kirk set his records in the 100 meter hurdles and the Junior long jump. Sandy Gough also set two records in these trials, although one of them was set in a heat rather than a final. However, the record still stands. Sandy lowered the 100 meter record to 13.9 and raised the high jump standard to 4 ft. 10 in.

In all, Haliburton students set twelve records. In Midget girls, Alberta Nicholls tossed the discus a record 75 ft. 11 in. Midget boys: Kirk Coneybeare romped to a 17.8 record in the 100 meter hurdles. In Junior girls, Brenda Ripley set a new long jump record of 14 ft. 6-1/2 in. Junior boys, Doug Priemski tossed the Javelin 125 ft. 10 in. breaking the old mark by more than five feet.

Marg Darby set a new 100 meter open hurdles mark of 20.0.

In Senior boys, George Cooper lowered the 1500 meter mark to 5.46.1. Paul Fleming leaped to a new Triple jump record of 37 ft. 10-1/2 in.

Following is a complete rundown of all the Haliburton students who finished in the first six places to advance to the Kawartha Track and Field Meet in Cobourg.

Midget Girls

TRACK & FIELD REPORT

'Kawartha District Track and Field Meet'

On Thursday, May. 23 the Haliburton Senior Secondary track and field team travelled to Cobourg to take part in the Kawartha District Track and Field Trials.
In this meet the first four finishers earn the right to compete in C.O.S.S.A. Track and Field Championships held this year in Napanee.
Haliburton did extremely well in these trials, finishing second only to Lakefield. Last year Haliburton was third, so there has been a steady improvement in the Haliburton track and field program and much of this improvement has to be credited to the fine work of Haliburton's track and field coach, Bob Colliver.

Final standings in the A competition are as follows:

1. Lakefield - 140
2. Haliburton - 124
3. Fenelon Falls - 95
4. St. Peters - 65
5. Trinity College - 55
6. Campbellford - 44
7. Millbrook - 40
8. Norwood - 30
9. Bancroft - 7

The following fifteen students will be representating the Haliburton Senior Secondary at C.O.S.S.A. this week in Napanee. Their results at Cobourg are listed below.

Midget Girls - Long Jump - Jackie Gough - 2nd -14ft.7in.

Cook Like A Chef

Your company meals can look and taste like gourmet fare when you take advantage of recipes from chefs around the world.

Rene Schiegg, executive chef at the Holiday Inn of Bermuda, suggests a meal of tender veal and fresh mushrooms in white sauce. White wine flavors the sauce in his recipe below. Add Rosti Potatoes, another recipe from Mr. Schiegg, and a green salad or vegetable to complete the meal.

Knowing how to shop for the veal is important. This meat has a characteristic white color because of the calves' strict diet of milk or high-protein calf meal. The best veal comes from calves about three to four months old.

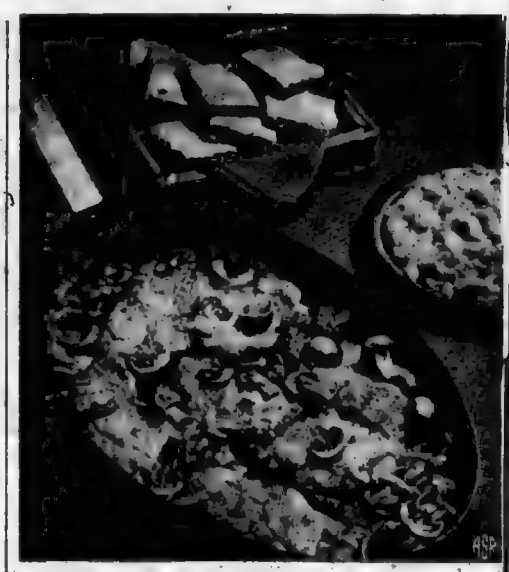
Another recipe from the Swiss-born chef at the inn, is Basler Leckerli (Basler Cookies). This is an iced bar cookie flavored with spices and honey.

Select Tips Of Mushrooms And Veal In White Sauce

1½ pounds veal (very tender)
8 ounces mushrooms
4 ounces white wine
4 ounces bouillon
2-3 ounces heavy cream
1 medium onion
½ lemon
6 ounces butter
paprika
seasonings
flour

Cut the veal into small slices. Flour the pieces. Heat butter in frying pan. Add minced onion and saute until light brown. Add meat and fry quickly. Put the meat on a plate. To the residue in the pan, add the bouillon and white wine. Cook this sauce to desired thickness. Then add cream with lemon juice and paprika. Season to taste.

Saute mushrooms in butter. Season the meat and add to sauce to heat again. Arrange in serving dish and cover with mushrooms. Serves 4.



COOK LIKE A CHEF with this recipe for Select Tips of Mushrooms and Veal in White Sauce. Rosti potatoes and Basler Leckerli are other out-of-the-ordinary foods to try.

Rosti Potatoes

1½ pounds potatoes
3 ounces bacon
3 ounces butter

Boil potatoes in jacket. Cool, peel and cut potatoes into matchstick size. Heat butter and diced bacon in pan. Add potatoes and fry, turning constantly, on low heat until golden brown. Finally, brown slightly on one side and turn over carefully onto serving dish.

Bakker Leckerli
(Basler Cookies)

1¼ cups honey
1 cup sugar
2½ cups unsifted flour
1 tablespoon grated lemon peel
3 tablespoons lemon juice
1½ teaspoons baking soda
½ teaspoon nutmeg
½ teaspoon ground cloves
2½ ounces finely chopped almonds

Preheat oven to 350 degrees. Combine ingredients in order given to make a firm dough. For best results place dough in a bowl and let rest overnight. Do not refrigerate. Knead dough on floured surface until smooth. Put dough into well-oiled 10½ x 13½ inch baking pans. With floured rolling pin, roll dough out to fit pan. Bake 25-30 minutes. While cookies are warm, cover with icing made of confectioners' sugar and 1 ounce hot water. Cut into 1 x 2 inch squares and remove from pan while warm.

ABOUT THE TOWN

with Jeanne Sears

There was a large crowd from all parts of our area at Haliburton County's Centennial Day at Ontario Place. The buses were all comfortable and the drivers very capable and friends. The highlights from the High School Musical were excellent. Other visitors at the Forum stopped to listen and stay on in spite of the chilly breeze; we wondered how some of the barefoot actors and actresses kept warm. Our Legion Pipe Band played at various times and paraded the grounds at other times--they must have been tired at the end. Item of note was the group of Square Dancers from Cardiff, who did sets at various times to the music of the Highlanders. We didn't know there was so much talent in our County to carry through a program from noon until 9.30 at night. We appreciate all the effort and work done by the Committees and are sure everyone thanks them, one and all. We heard that some of the program was on CBC Radio, did you hear this?

Mr. and Mrs. Walter Noice and Mrs. Norm Craig visited Miss Ida Noice at Sunnybrook Hospital on Sunday. This was a special occasion as it was Mrs. Noice's birthday; also Miss Noice celebrated her 92nd birthday and all enjoyed birthday cakes. Miss Noice wishes to be remembered to all her friends in this Area.

The Hockey Banquet at the Recreation Centre last week had about 200 present; awards were made by Roger Neilsen and two defencemen of the Peterborough Petes who also showed slides of their trip to Russia.

Belated good wishes to these residents of Hyland Crest Home who celebrated birthdays in May--Irene Stewart, Marjorie Kanally, Cephas Rayne and Ralph Gibson.

Several members of the Womens Institute attended Victoria East District Annual at Fenelon Falls United Church last Thursday. The ladies included Mrs. L. Cox, Mrs. Vera Cowen, Mrs. Alice Todd, Mrs. P. Clarke, Mrs. W. Walker, and Mrs. Sears.

Dorothy McElwain and Helen Pascoe were lucky winners of $100 on the Bingo at IGA Store last week having full cards. Congratulations to both.

Read in a magazine that parents should not let their toddlers get coloured illustrations from books or magazines in their mouth; seems there is also some lead present there.

If you hear of anyone who is ill or shut-in, please get in touch with Mrs. Allan Taylor who now sends cards for the Women's Institute. It is really great to get a card when you are away in hospital and know that someone is thinking of you.

Persons in out-of-town hospital include Shirley and Grant Hewitt, Art Young, Mrs. D.G. Blakey, Bob McElwain, Alf. Huntington, all at Toronto General Hospital. The community sends good wishes to all these people.

Heard somewhere--The trouble with young people--it isn't what they are taught, but what they carry it home in.

There is investigation going on regarding lead present in some electric kettles. These have been on the market for many years, but there are many which have some lead sealer. So shop carefully.

Hint of the week--place your paint can on a paper or aluminum plate--catches all the drip.

Lord, give me a heart that often sings,
And finds great joy in little things;
The song of a bird, the smell of a rose;
A gentle breeze that playfully blows;
A savoury meal with loved ones near;
The sound of a church bell, sweet and clear;
A mother's love, a child's caress;
These are the things that truly bless.
Mildred Kirkland.

Wonder why shipments go by car and cargo goes by ship?

Mabel and Eldon Deacon are away on a visit with their daughter and her husband at Dartmouth, N.S.

Another item of interest on Saturday was that Centennial issues of the Haliburton Echo were given out and we noted that most people kept these and who wouldn't as it was datelined Feb. 9, 1923. The buses at our village all received the Centennial issue of the Minden Progress and these, too, were kept as souvenirs.

Many people have been planting their gardens, but cool weather of the weekend reminds us we may expect frost yet, so take care of the tender plants.

More traffic on weekends with our summer visitors here, so drive carefully.

Cheerio until next week.

Band Treat

FOR MINDEN RESIDENTS AND VISITORS ALIKE THIS BAND PROVIDED A SPECIAL TREAT OVER THE RECENT HOLIDAY WEEKEND. IT'S THE SENECA PRINCEMEN FROM SENECA COLLEGE, NORTH YORK BOROUGH, WHO SPENT THE WEEKEND ENJOYING OUR HALIBURTON HIGHLANDS AND PRACTISING THEIR DELIGHTFUL MUSIC AT MINDEN'S COMMUNITY CENTRE GROUNDS.

Dead wrong: A salesman, admitted to a woman's home, gushed over its beauty.

"And what's in that beautiful vase?" he asked.

"My husband's ashes," she replied.

"Oh, I'm sorry. How long has he been dead?"

"He's not," she said. "He's just too lazy to find an ash tray."

NEWS AND VIEWS

The Haliburton And District Association For The Mentally Retarded

BY ED JOHNSTON

Flowers of Hope Campaign came to a close on Sat. May 18 and as promised in last week's report, I am happy to announce that our Goal Thermometer in Pollards Store has just turned the $1000.00 mark.
There are still several areas to be heard from and when all reports are in, a complete total will be published. By press time next week a final total should be available. In the meantime, don't forget to purchase your ticket for a chance on the Color TV set, imagine, Color TV for only $1.00 and the privilege of helping our retarded adults. The public are cordially invited to a General Meeting to be held at Lakeview Centre on Tuesday May 28 at 8 p.m. Makr this date on your calendar and plan to attend, you will find it interesting and informative.
Coming Events:

Bingo - Sat. June 1, The Orange Hall, Haliburton.
Sponsored by L.O.L. 975
Proceeds in aid of A.R.C. Industries.
Cash and Prizes - Admission $1.00
Cards - 5 for $1.00

CENTENNIAL CORNER

FROM THE TOWNSHIP OF SNOWDON

On Monday, January 19th, 1863 the Town Council of the Township of Snowdon held their first meeting at the home of Mr. B. Sawyers, Gull River. At that meeting Mr. Robert Ritchie was appointed Reeve, other members of Council were: Thomas H. Earl, Adam H. Garrett, Henry Phillips and Hiriam Wilcox.

The following year the township united with Glamorgan and Monmouth but in 1865 Monmouth withdrew and from that time until the creation of the Provisional County of Haliburton in 1874 the Townships of Snowdon and Glamorgan were united. At the time of the formation of the new County, the spelling of the name of the Township was changed from Snowdon to its present format.

Two former Reeves of the Township (Samuel E. Peck 1864-1865) and William C. Scott (1965) were subsequently elected to the Provincial and Federal Governments respectively.

In the latter part of the 19th century with the coming of the Victoria Railway, and, following the discovery of iron within the Township, the Irondale, Bancroft and Ottawa Railway, the economic life of the township prospered. The villages of Gelert and Irondale in particular boomed during this period. The population also increased and passed the 1,000 mark in the 1890's.

Following the failure of the iron mines and the forest fire of 1913 which laid waste some 40,000 acres within the township, the economy suffered a severe setback. Farms were abandoned and by 1921 the population had dwindled to 616.

Unlike most of the townships within the County, the Township of Snowdon is not blessed with an abundance of lakes and has thus not been able to attract much of the cottage trade influx of recent years. The shores of South Lake and the portions of Canning and Salerno Lakes which are within its boundaries have been developed for the benefit of tourist and resident alike.

The Council of the Township of Snowdon congratulates the Provisional County of Haliburton on a century of progress and service.

Robert J. Vick - Reeve
Gareth K. Kellett - Deputy Reeve
Mrs. Grace Simmons - Councillor
Ronald Graham - Councillor
Gene Newell - Councillor.

CENTENNIAL EVENTS: Sunday, June 2nd, Orange Lodge Centennial Parade and Service - Minden 1.30 p.m.
Stanhope Airport Centennial Fly-in - all day.

YEA TEAM!

1974 MINDEN GIRLS BALL TEAM

Control of birch leaf miner

White birch, one of the finest and most popular ornamental trees, is susceptible to attack by several insect pests, the most common of which is the birch leaf miner.

'Control of this pest can be a problem to gardeners,' says Burke McNeill, horticulturist with the Ontario Ministry of Agriculture and Food. 'Timing applications of recommended insecticides is an important factor in their control.'

This insect, a sawfly, winters as a larva in the soil, emerging as an adult in late May. The eggs are then laid in the leaf where the resulting larvae feed on the leaves central tissue. Control, therefore, lies in the early application of insecticides---when the adults or larvae are emerging.

Between May 15 and May 24 is prime time for best results from the application. By the time the larvae are feeding and damage is noticeable, insecticides have no effect.

Further information can be obtained from local garden centers or by obtaining publication 312, 'Pest Control Chart for Ornamentals in the Home Garden', from the Information Branch, Ontario Ministry of Agriculture and Food, Parliament Buildings, Toronto, Ontario M7A 1A5.

Cedar damage temporary

The larvae of a tiny moth with a wingspread of eight millimeters is causing a lot of concern for the owners of ornamental cedars and cedar bushlots. These small, whitish or pinkish caterpillars feed within the tips of cedar branches, causing them to turn brown.

Damage to cedars is particularly noticeable in May or June but the damage is sometimes confused with other causes. 'At this time of year the condition is obvious, but it becomes less noticeable as the season progresses and new growth is produced,' says W.C. Allan, a professor in the Department of Environmental Biology, Ontario Agricultural College.

'Close examination of the tips will reveal if the insect is the cause: hollowed-out interiors are definite proof that cedar leaf miners are present.'

He points out that specimen cedars in lawns and hedges, particularly those out of their natural environment (swamp cedars, for example) are a target for cedar leaf miners. Damage is most severe on trees growing in open sunlight. While healthy trees recover easily from blight infestations, severe populations of cedar leaf miners for several successive years may cause tree mortality.

Chemical control is not usually needed because new growth soon takes place, covering the damaged areas. On ornamental trees, gardeners can prune infested branch tips, prior to June 1. Infested tips should be burned immediately.

For severe infestations, chemical treatment is available. Spray in early May or late August using dimethoate (Cygon 4E or Rogor 40) to control the larvae.

The number of cedar leaf miner moths present in the trees also indicates the severity of infestations. Move several branches and watch for the adults to fly out. If many moths are present, spray the tree with malathion or lindane in June.

Controlling cedar leaf miners in large areas of cedar is expensive, time-consuming and not really worthwhile. Pruning and burning insect-damaged tips is the least costly method of controlling the larvae.

'Timing sprays is important for good control. But homeowners should remember that unless infestations are severe, well-growing cedar trees and hedges can withstand some cedar leaf miner damage,' Professor Allan concludes.

Your RED CROSS serves for YOU!

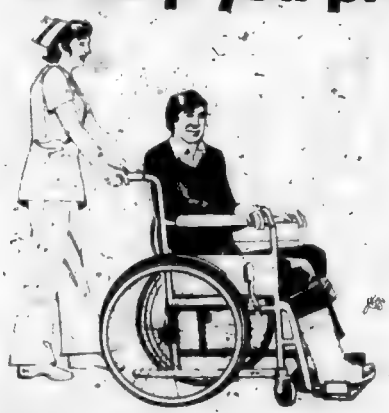
Your family's health is your most important possession.

This is what Ontario is doing to help you protect it.



Most of us get sick or have an accident at one time or another. And left to our own resources, serious illness could often cripple us financially.

So the government here in Ontario has developed a plan to provide health care for everybody, any time it's needed.

That plan is called Ontario Health Insurance Plan — OHIP. (The "H" stands for "Health," not "Hospital.") The Plan is administered by your Ontario government for us, the people of the province, who pay into it regularly so we can benefit when we need it.

How does the Ontario Health Insurance Plan work? Like this:

First, you apply for coverage — on a "Group" basis where you work, or you can pick up an application form at any bank, hospital, or OHIP district office.

Next, you'll pay modest premiums to cover yourself and your family towards the time when health care is needed.

People on welfare, students, and others whose incomes fall below a certain level, are eligible for assistance in paying their OHIP premiums. No one is excluded for lack of money, but you must apply for such premium assistance.

Benefits include: physicians' services • standard ward hospital accommodation • X-rays • laboratory tests • drugs required in hospital • operating and delivery rooms • radiotherapy • chiropractic, osteopathic, and chiropodist services • eye examinations • occupational therapy • physiotherapy • speech therapy • nursing and medical care in nursing homes and homes for the aged • Home Care service • ambulance • certain dental surgery. Payments may cover costs entirely or only in part, depending on the nature of the claim.

But remember: Membership in the Ontario Health Insurance Plan is not automatic — you have to apply for it. And be sure to carry your identification card or OHIP number at all times.

If you would like more information, visit any OHIP district office. Or write to:

TODAY'S HEALTH

Child's behavior may not be "just adolescence"

by David Woods

The Jesuits used to say, and perhaps still do, that if they could get a child before the age of seven they would have him for life.

Much the same may hold true for emotional salvation — although the age limits may be slightly less rigid.

Fortunately, the era of Oliver Twist, the workhouse and the orphanage is behind us. But a recent survey (the *CELDIC* Report, 1970) showed that about one million Canadian children are in need of some kind of attention, treatment and care for emotional disturbance, learning disorders, behavioral and social problems.

Today, the emphasis is on treating these problems within the community — ideally, without taking the child out of his home environment — rather than in special long-term residential programs.

The aim is for children to develop new skills in living and learning; a continuing process a Toronto psychiatrist describes as "putting them back on the right track before they've gone too far on the wrong one."

In Ontario, there are more than 50 centres dotted around the province, so the child needing special help can usually get it reasonably close to home.

Moreover, there's evidence that the approach to treatment is becoming less fragmented than it used to be. Ontario's child-help associations are forming an alliance, and studies are under way in one three-county region of the province to see how they can better co-ordinate their efforts on behalf of children.

In the Borough of Etobicoke there is already a program of planned co-operation between the school board, public health units, and four mental health clinics.

Health ministry psychiatrist Dr. Naomi Rae-Grant points out that parents should be able to recognize behavioral problems. They should watch for a sudden and sustained change in attitudes to school or friends. And they shouldn't dismiss the child who constantly says he's bored or unhappy. Above all, she says, avoid the temptation to dismiss all behavior changes as "just part of going through adolescence." There may be more to it than that.

Many of the emotional problems children suffer from are rooted in society's changes — disruptions caused by increasing mobility; family breakups through divorce or separation; pressures to succeed academically or in sports — or in career choice; and the rapidity of social change itself.

With knowledge expanding (and becoming obsolete) so much faster, age has become separated from wisdom. Children can no longer rely on the presumed infallibility of parents and elders; in fact, children are often more knowledgeable.

Perhaps the most effective form of preventing emotional disturbance, says Dr. Rae-Grant, is creating a home environment for children that combines love and learning with leadership.

David Woods is a former editor of Canadian Family Physician magazine. He has served on the staff of four medical publications, and written for several others in Canada and internationally.

BUSINESS & PROFESSIONAL DIRECTORY

TODAY'S CHILD

BY HELEN ALLEN

THE TORONTO SUN SYNDICATE

Good-looking Michael, 11, is Irish and Italian in descent, a slender boy with blue eyes, light brown hair, fair skin and a winning smile.

Michael is in good general health but has had a number of asthma attacks caused by allergies. The allergies are now controlled by weekly injections but because of his asthma, he missed a good deal of school and is behind his age group. He is in a special Grade four class now to help him catch up and is doing better in school than ever before. He will probably do even better when he is settled in a home of his own. Michael's allergies include feathers, dust, wool and animals — with horses the worst. But his foster home's dogs and cats do not appear to bother him. Fortunately he is not allergic to any foods and is on a normal diet.

Energetic Michael loves sports. He played centre field on a baseball team last summer and is proud of the trophy it won. He plays floor hockey at school and looks forward to being on an ice hockey team next year. He is a good swimmer and likes fishing.

Quiet but not shy, Michael is friendly, pleasant and co-operative. He gets on well with other children.

Michael will be a fine son for a family who will appreciate his lovable personality, share his interests and be calm about his allergies.

To inquire about adopting Michael, please write to Today's Child, Ministry of Community and Social Services, Box 888, Station K, Toronto M4P 2H2. For general adoption information, please contact your local Children's Aid Society.
